Education

DIT University, Dehradun, B.Tech. in Computer Science

August 2023 – Present

- **GPA:** 9.45/10.00 | **Coursework:** OOP, DSA, DBMS, Operating Systems

Skills

Languages: C, Java, JavaScript, Python

Technologies: React, React Native, TypeScript, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, HTML, CSS

Version Control: Git, Github, Postman

Concepts: Data Structures & Algorithms, OOPS, DBMS, OS, CN, Computational Theory

Experience

Flowbit Ai, Full Stack Developer Intern

Sept 2025 – Dec 2025

- Spearheaded front-end UI implementation with a focus on structure and usability, demonstrating a strong sense of ownership over project deliverables.
- Supported cross-stack development by quickly adapting to back-end requirements, ensuring efficient problem-solving and seamless team collaboration.

Technology Business Incubator (TBI-GEU), Full Stack Developer Intern

Apr 2025 – Sept 2025

- Handled end-to-end development tasks for assigned projects, applying critical thinking and rapid problem-solving to meet key deliverables.
- Demonstrated high adaptability within a fast-paced incubator environment, taking strong initiative to learn quickly and drive meaningful contributions to the program.

Projects

GhostStream – P2P File-Sharing Application

[GhostStream](#)

- Engineered a peer-to-peer file-sharing platform leveraging WebRTC and Socket.io to enable fast, secure, and direct real-time data transfers.
- Successfully integrated the file-sharing architecture into a college dashboard system to optimize and streamline local resource distribution.
- **Tech:** WebRTC, Socket.io, React, Node.js, Express

SecureVote – Full-Stack Online Voting Platform

[SecureVote](#)

- Designed and implemented a full-stack voting system featuring a real-time transparency dashboard and a comprehensive administrative management console.
- Developed robust backend controllers and a mobile-inspired frontend UI, ensuring system integrity and reliability through thorough test case verification.
- **Tech:** React, Node.js, Express, MongoDB, Tailwind CSS

Achievements

- Solved **250+** LeetCode problems; **100+** day streak maintained
- Placed in the top tier out of **100+ competing teams** by rapidly prototyping and pitching a functional application within a strict time limit
- Successfully merged pull requests into public GitHub repositories by actively resolving UI bugs.
- Successfully merged 35+ pull requests across multiple open-source repositories over a 3-month period as a **GSSoC contributor**
